

EPIC ONE  
ADVENTURES

For the past 20 years, I have fueled my passion for the mountains and adventure by exploring my own backyard in Utah's incredible Wasatch Mountain Range and the seven national parks within a few hours of home. My love of nature took me even further from home as I began adventure traveling to the Canadian Rockies, European Alps and Asia. Now my passion is taking our clients to the finest destinations you can imagine and sharing in their joy as they experience these incredible places.

My happiness is found in the great outdoors. I fell in love with exploring our alien landscape and have spent countless hours discovering the slot canyons, peaks, and hidden treasures located in Southern Utah. As my experience has increased, my adventures have intensified and taken me all over the U.S. and the world including Hawaii, Central and South America, and Canada. I have traveled and trained with the best. I find my greatest joy in seeing the satisfaction on people's faces after assisting them through obstacles that push their limits while exploring rarely seen majestic destinations.
