ADVENTURES

## MOAB / ARCHES WALKING TOUR

### — SINGLE DAY ITINERARY —

We will begin by leaving Moab and into Arches National Park and arriving at the Wall Street trail head. After admiring the towering walls and the famous Nefertiti viewpoint, we will walk down through Wall Street for an incredible perspective. From here we will drive the entire length of Arches and explore one of the most iconic areas of the park, the Devil's Garden. Not many people venture past the beginning due to the unknown factor, however, we know the route. We will venture through this maze of canyons, unique formations, hidden grottos and arches. There seem to be endless channels to explore.

After the Devil's Garden we will stop for a well earned lunch. Afterward we will hike to Utah's most iconic symbol, Delicate Arch. We hike over sandstone while enjoying the unique red rock scenery of Utah. One of the fun aspects of this hike, is you don't see the arch until the final moment. We traverse along a path marked by free standing cairns then approach the final rise, cresting over a massive sandstone bowl with Delicate Arch standing high above. Once we have finished we will return to Moab.
